

The Home Resource Materials Distribution Program

An important aspect of Home Resource's mission is helping to build healthier communities. This mission includes human and wilderness communities, which means we want to support housing efforts and sustainable community initiatives while conserving resources through maximum re-use and recycling.

Our reusable materials are already very inexpensive (typically 50 to 90% below new) but we are happy to reduce those prices even further to help organizations that help our communities.

Our standard policy for non-profits is a 10% discount on sheetgoods, consignment items and lumber (excluding new, sustainably harvested products), and 50% off most other materials. In addition, we have such a surplus of certain materials that we are often able to donate them outright. (See the list reverse.)

To receive discounted or free materials, just complete the form at right and return to Home Resource, 1515 Wyoming, Suite 100. We will review your application and determine in advance what *type* of materials will be donated and/or discounted, but you will be able to select the specific materials you like. Upon approval, we will enter your information into our database. Then, anyone authorized to purchase or receive donations may select and pick them up throughout the duration of your project.

Your discounts and donations will be recorded at the front counter at the time of sale. Discounted materials must be paid for at that time, unless you have a charge account set up. To apply for a charge account, contact the Home Resource Bookkeeper at 541-8301.
